Custom programs and corporate trainings available year-round upon request.

World-Class Infrastructure & Certification

Campus Facilities

Collapsed Structure Search & Rescue (CSSR) Facility

Multi-story rubble simulation structures for urban search and rescue training

CBRN Training Area

Dedicated chemical, biological, radiological, and nuclear response training areas with decontamination corridors

Water Rescue Training Facility

Pool and flood simulation environments

Canine Training Grounds

Specialized obstacle courses and scent discrimination training areas

Medical Training Wing

Fully equipped emergency medical training labs and hospital simulation environments

Physical Training Areas

Fitness facilities, rope rescue towers, and rappelling structures

Auditoriums & Classrooms

Modern learning spaces equipped with audio-visual technology

Residential Accommodation

Comfortable on-campus housing for participants during intensive programs

Certification & Recognition

1

International Recognition

Certificates accepted by SAARC member countries, aligned with INSARAG standards

2

Continuing Education Credits

CEU credits for maintaining professional certifications

3

NDRF Alumni Network Access

Lifetime connection to India's premier disaster management community

4

NDRF Academy Professional Certification

Specialized certification in chosen discipline

5

Ministry of Home Affairs, GoI Certificate

Official credential with national recognition

Learning Formats

On-Campus Immersive

Residential programs at Nagpur campus with hands-on training and live simulations

Blended Learning

Online theoretical modules combined with on-campus practical intensives

Custom Corporate Programs

Tailor-made training solutions at client location or NDRF Academy

Capacity Building

Special programs for stakeholders and allied MDOs

Partnerships, Enrollment & Contact

Strategic Partnerships

- Western Coalfields Limited (WCL) – Industrial disaster management & fire fighting
